AUBURN, ALA., April 4, 1869. MESSES, JOHN DARBY & Co., 161 William St., N. Y. MESSES, JOHN DARBY & CO.

GENTS:—I have received so much benefit from "Darby's Prophylactic Finid," that I feel it my duty to fet you know it. I had an attack of Typhoid Fever, and with it a most stubborn case of Erysipelas, and was confined to my bed near two months, suffering the most intense pain all the time from Erysipelas, and after exhausting the many prescriptions of my physician, he finally commenced the use of Darby's Prophylactic Fluid, and soon found that I was being improved by its use, and continued to use it, and am nearly well. I consider it the most valuable medicine for the diseases and purposes for which it is made that is sold. I also used it most successfully on my little son who was severely burnt, and I do assure you that it was from this medicine atone that I could get any relief from my distressing attack of Erysipelas.

I do not write you this as a certificate for publication, but as a duty that I feel I owe to Prof. Darby and his invaluable medicine. I shall never be without It again if I can by any possible means get it.

I hope you are succeeding, and will make a fortune. Very truly yours.

The explosion when it was fired was terrific. The fragments were thrown to great distances and the earth was torn up by the force of the shock. Whard thinks the hostility of the ordinance officers to him and his invention was because he would not take a hint which was given him to divide. He has been petitioning Congress a year or two for relief without success. We are inclined to believe there is some merit in his claim, though the amount claimed is doubtless too large.
